ATTN: PATENT APPLICATIONS
Washington, D.C. 20231

Sir:

Submitted herewith is a paper copy of the sequence listing of those sequences in the captioned patent application filed under 37 C.F.R. § 1.60. The paper copy of the sequence listing is enclosed as a separate document, with an amendment directing entry of the sequence listing into the specification.

The content of the paper copy of the present sequence listing is the same as the content of both the paper copy and the computer readable form of the sequence listing in the parent application Serial No 08/292,694, and includes no new matter. In accordance with 37 C.F.R. § 1.821(e), a duplicate computer-readable form of the sequence listing is not enclosed herewith as it can be located with the parent file.

However, should the present sequence disclosure be deemed to be defective in any way, Applicants request that a Serial Number and Filing Date be accorded to the present application and a 'Notice of Missing Parts, Filing Date Granted' be forwarded to the undersigned Applicants' representative.

Respectfully submitted,
